PROJECT

[NoteTaking Web App](#)

- Project Overview: A responsive, feature-rich note-taking app allowing users to sign up, log in, and efficiently manage and categorize notes with full CRUD functionality.
- Technologies Used: React, Redux, Tailwind CSS, Appwrite, React Router DOM, Context API

Key Features:

- User Authentication: Secure sign-up and login using App Write.
- Note Management: Create, read, update, and delete notes with rich text formatting.
- Categorization: Organize notes under different boards.
- State Management: Efficient data handling using the Context API and Redux.
- Responsive Design: Provides a seamless experience across devices using Tailwind CSS.

[HdPngWorld](#)

- Project Overview: Developed and deployed a real-world image website specializing in high-quality PNG images for designers and creators, providing a wide range of downloadable resources. Users worldwide actively use the site.
- Technologies Used: HTML, CSS, JavaScript, PHP, MySQL, AdSense

Key Features:

- **Dynamic Page Generation:** Infinite page creation based on categories and tags.
- **Performance Boost:** Implemented lazy loading, enhancing site speed by **30%**.
- **User-Friendly Interface:** Intuitive layout for easy browsing and downloading.
- **Ad Monetization:** Revenue generation through Google AdSense.
- **SEO Optimization:** Enhanced visibility for increased organic traffic.
- **Monthly Visitors:** Over 1.5K monthly visitors.
